

VISUMPOINT COURSE OFFERING

Bridging the Gap Between Business and IT

Visumpoint Training Services

Technology is moving at the speed of innovation, the speed of imagination, the speed of knowledge. Is your company keeping up? Visumpoint offers intensive training courses focusing on leading edge technologies. Each interactive course is based on real world experience and is taught by hands-on experts, giving your organization the knowledge and skills they need to gain the competitive edge.

With our training services, visumpoint hopes to transform, enhance and extend the knowledge of your development team. Using our field-proven coursework, we train your staff to develop the necessary skills to effectively manage and utilize technology and execute projects in-house, thereby reducing outsourcing costs and improving the efficiency of your team.

Visumpoint's full software lifecycle curriculum and professional training

staff will give you the knowledge and skills to be more productive when developing today's most challenging applications.

All visumpoint courses are taught by seasoned professionals with many years of real world on-the-job experience. Every instructor is trained to offer a hands-on, pragmatic learning environment that incorporates years of lessons learned and anecdotal experiences.

Visumpoint training courses include:

- Effective Requirements Gathering
- Advanced Use Case Development
- Requirements Elicitation and Facilitation
- Business Process Management (BPM) for Analysts
- Modeling with Unified Modeling Language (UML)
- Service Oriented Architecture (SOA) for Architects
- Service Oriented Analysis and Design
- Unified Profile for DoDAF and MODAF (UPDM)
- OMG's Certified Expert in BPM (OCEB) Training
